

Lexington Public Schools

Competition Protocol for 20-21

Due to currently heightened public health concerns, Lexington Public Schools request that every student, staff, and fan help us share the responsibility for making indoor facilities as safe as possible. The following guidelines are subject to change if it becomes necessary due to district, athletic conference, or state conditions.

- Face coverings are required. The only exception is for athletes during competition.
- Non-distanced grouping with anyone outside of a household should be avoided whenever possible.
- No person should enter having experienced any symptom of covid-19 as noted at [cdc.gov](https://www.cdc.gov) following a self-assessment.
- Young children should remain with parents at all times.
- Everyone in attendance should stay as stationary as possible without loitering in small common spaces.
- Spectators should leave the gym as soon as possible following the completion of a scheduled activity.

*Visiting teams should provide their own warm-up balls. Our locker rooms are sanitized after each practice or game.
